

Reduce the temperature of your deck with

Frontier Desert Deck

Frontier Desert Deck, when mixed with marble sand and white cement, and applied to concrete produces a durable attractive finish that is ideal for swimming pool decks, patios and other walkways.

TIME SAVING

...Days and even weeks are saved because sub-deck and application are completed the same day.

ECONOMICAL

...Material cost, including sand and cement are a fraction of other decorative concrete finishes.

ATTRACTIVE

...Pastel shades, pleasing appearance, and non-slip texture are the features that customers request.

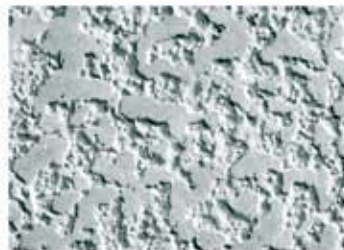

- CARTON INCLUDES 8 UNITS
- FRESH CONCRETE COVERAGE : 1 UNIT = APPROX. 300 SQUARE FEET
- EXISTING CONCRETE COVERAGE: 1 UNIT = APPROX. 250 SQUARE FEET
